***Continued Examination Under 37 CFR 1.114***

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on December 26, 2006, has been entered.

Applicants' Request for Continued Examination, filed on December 26, 2006.

Claims 1, 3-77, and 79-106 remain pending in this application.

***Withdrawn Rejections***

The 102(b) rejection of claims 1, 3-77, and 79-106 as being anticipated by Tadakoro et al. (WO 98/48075/U. S. Patent No. 6,200,672), stated in the Final Rejection, has been withdrawn in view of Applicants' persuasive arguments traversing this rejection.

***132 Declaration***

The 132 Declaration filed by Applicants on (whenever) is sufficient to overcome the 102(b) rejection of claims 1, 3-77, and 79-106 as being anticipated by Tadakoro et al. (WO 98/48075/U. S. Patent No. 6,200,672).

***Allowable Subject Matter***

Claims 1, 3-77, and 79-106 are allowed.

***Reasons for Allowance***

2. The following is an examiner's statement of reasons for allowance:

The prior art of record does not teach or suggest the claimed corrosion-inhibiting pigment composition comprising a corrosion-inhibiting pigment which comprises a rare earth element and a valence stabilizer combined to form a rare earth/valence stabilizer complex, said rare earth element being selected from the group consisting of cerium, praseodymium, terbium, or a combination thereof, and at least one rare earth element is in the tetravalent oxidation state in said stabilizer complex in said pigment composition.

Applicants' Declaration under 37 CFR 1.132 shows that, in Tadokoro et al. (U. S. Patent No. 6,200,672, treated as equivalent to WO 98/48075) does not exhibit cerium in the tetravalent oxidation state.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
